This Directory is the property of The Pacific Telephone and Telegraph Company, for the sole and exclusive use of its patrons, and the Company assumes no liability because of errors or omissions. All requests for changes must be made to the Company in writing. Copy for the next issue of this Directory will close May 31, 1912, after which date no changes or additions can be made.

COPYRIGHT. 1912. BY THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY.

Telegrams, Cablegrams, Night Letters or Day Letters may be sent from any Bell Telephone to the

Western Union Telegraph Company's Office

It is a very simple matter to send any kind of a telegram by telephone. All you have to do is to go to your telephone and say "Telegram"—the telephone and telegraph operators do the rest. The following information and suggestions are given, however, for the purpose of facilitating the work and securing closer co-operation between the person sending the telegram and the one receiving and recording it.

1. Determine exactly what you wish to say. Writing out the telegram on a slip of paper will help you. Give the telephone number of the party addressed if possible—this facilitates delivery.
2. Signal the telephone operator in the usual way and say "Telegram."
3. Dictate your message to the answering telegraph operator, who will repeat same to you to insure correctness.
4. Telegrams may be sent collect from any Bell Telephone or may be paid for by the sender in the following manner:

   (a) Charges for telegrams from subscribers' telephones will be billed against the telephone subscriber, even though the sender of the telegram may not be the subscriber.

   (b) Charges for telegrams sent from attended public telephones should be collected by the attendant.

   (c) Charges for telegrams sent from attended public telephones in hotels or from hotel rooms, should be collected by the hotel. The Telephone Company, in turn, will bill the hotel.

   (d) Charges for telegrams sent from coin-box public telephones will be collected in the same manner as telephone charges are collected; that is, the telephone operator will advise the amount to be deposited.

TELEPHONE INFORMATION

Directions for Using the Telephone

Local Telephone Calls

Use Latest Directory in ascertaining the telephone number of the person to whom you wish to speak.

Call the operator by lifting the receiver from the hook.

(If the number is not listed in the Directory, ask "Information" for the number, and note it for future reference.)

When the Operator Replies by saying, "Number, please," give your order slowly and distinctly, speaking directly into the transmitter with your lips close to the mouthpiece. First, name the central office desired and then pronounce the number by giving each figure separately. For example: "Douglas 9860" should be pronounced "Douglas nine, eight, six, oh." There is an exception to this rule when the number is an even hundred or an even thousand. For example: 400 should be pronounced "four hundred," and 4000 should be pronounced "four thousand."

When the Operator Repeats, listen carefully and correct her promptly if she has misunderstood the number. If the desired line is found in use, the operator will report "Line Busy." (On calls to party lines, the busy report does not necessarily mean that the particular station called is busy, but that some station on the line is in use.)

If the Number Called Fails to Answer within a reasonable time, the operator will report "They Don't Answer."

When Through Talking, replace the receiver on the hook. Failure to do this will cause your line to be reported out-of-order, and prevent you from receiving incoming calls.

To Attract the Operator's Attention during a connection, move the hook slowly up and down five or six times, or until the operator answers. Do not move the hook rapidly as this may prevent the operator from receiving the desired signal.

In Answering a Call answer as promptly as possible, as delay may compel the operator to report "Don't Answer" to the person calling and you may miss an important call.

Do not remove the receiver from the hook until the bell has stopped ringing.

Instead of saying "Hello," give your telephone number or name, as "This is Douglas 9860," or "This is Brown & Company," or "This is Smith & Company, Mr. Jones speaking," etc.

When holding the line never replace the receiver on the hook, as this may give the operator a signal to disconnect.

Two-Number Toll Calls

In Making a Two-Number Call, ascertain the telephone number of the person desired from this Directory or from the "Information Operator," and give the number to your local operator. Wait with the receiver at your ear, until the called number answers or the operator reports. A list of points between which two-number service is in effect is given on another page.

Long Distance Calls

To Make a Long Distance Call.—Call the local operator in the regular way and ask for "Long Distance." When the long distance operator answers give her your telephone number and name, followed by the telephone number desired (if known), the city or town and state. If a particular person is desired give the name and initials; also the name of an alternate person with whom you will talk if the particular person desired is not in. If the number of the telephone desired is not known, give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address.

Messenger Calls.—If the person desired is not connected by telephone, a messenger will be sent to his address to request him to come to a telephone, provided the party calling guarantees payment for the messenger service. The exact amount disbursed for messenger service will be charged in addition to the Company's tariff rates.

Appointment Calls.—Appointment to talk at a specified time may be made by notifying the long distance operator of the time at which the connection is desired. No extra charge will be made for appointment calls (except for messenger service when such service is involved), but the company cannot guarantee the completion of the connection at the exact time specified.

Collect Calls.—The charges on a long distance call, including messenger charges, if any, may be made against the telephone called, provided the charges are accepted by the party called. Requests to have the charges collected from the telephone called should be made when the call is given to the long distance operator.

Leave Word Calls.—If the person with whom you wish to talk is not immediately reached at the telephone called, word may be left (without charge) to have him call when ready to talk.

Reports.—In case delay is encountered in completing a call, the long distance operator will advise the person calling, at reasonable intervals, regarding the cause of the delay. If a report is desired, call the long distance operator and ask her for the information desired.

Rates and Charges.—Rates for long distance service are based in general upon an initial period of one (1) minute, although in some cases a two (2) or three (3) minute initial period is used. The full rate for the initial period will be charged for all connections not exceeding the initial period. For overtime beyond the initial period, charge will be made by the minute for each additional minute or fractional part thereof. The long distance operator will not interrupt conversation to notify subscribers of the expiration of the initial period.

When a particular person is asked for, every reasonable effort will be made to establish the connection with the person desired. If the person desired is not reached, no charge will be made for the service rendered, except for messenger service, should such service be involved.

When no particular person is asked for at the time the call is given to the long distance operator, charge

Telephone Information—Continued

will be made if connection with the proper telephone is established.

Requests for Charges.—If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

Supervision by Private Branch Exchange Operators.—The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange operators interferes with satisfactory service, and such operators should not remain "cut in" on the line after the connection has been established.

Report all complaints of long distance service to the "Long Distance Chief Operator."

For information not given above, concerning long distance service, call "Long Distance Chief Operator."

Complaints

The Company appreciates prompt reports of specific instances of unsatisfactory service. Always **telephone** such reports so as to permit of their receiving immediate attention. Ask your operator for "Complaint Department" when it is desired to report telephone out-of-order, or other unsatisfactory service.

Nickels Refunded from Prepayment Coin Box Stations

At Prepayment Coin Box Stations nickels will be refunded by the operator on local calls to "Long Distance," to any department of the Telephone Company, and on all calls where the called line is busy or the party does not answer. Failure to refund should be reported to the Chief Operator in order that allowance may be made on the next bill.

Emergency Calls

In Case of Emergency, calls for medical assistance, fire or police, etc., may be made without charge from any telephone station.

Telegrams and Cablegrams

Arrangements have been made with the **Western Union Telegraph Company** under which subscribers of this Company may transmit by telephone to Western Union offices telegrams and cablegrams destined to any part of the world, but this Company does not assume any responsibility for failure to transmit, or for errors in transmission or delivery. To expedite the service, a subscriber desiring to transmit a telegram or cablegram, may call "Telegram" and, unless otherwise directed, the operator will connect him with a receiving station of the Western Union Telegraph Company.

The charges for the telegrams and cablegrams so transmitted will be billed to the subscriber.

To facilitate the **delivery** of telegrams, the Western Union Company, when desired, will deliver messages to telephone subscribers by telephone instead of by messenger. The sender of the telegram may indicate that he desires such delivery by omitting the street address and substituting therefor the telephone number of the subscriber addressed.

Contracts for Telephone Service

To have telephones installed, changes made in Directory listings, etc., call Oakland 5600 and ask for the "Contract Department."

Seven Days Notice to Move a Telephone

Seven days written notice is required in all cases where the location of a telephone is to be changed.

Adjustment of Accounts

For adjustment of accounts, call Oakland 5600 and ask for "Collection Department."

No rebate of rental allowed until after written notice of 24 hours, as provided in contract.

Publishing of Telephone Numbers

We advise the use of the expression "Telephone Connection" on stationery, wagons, and in advertising, as we may be forced to change your number to meet service requirements.

Attachments to Telephones

Subscribers' contracts provide that no instruments or appliances not authorized by this Company shall be attached to or used in connection with its instruments or lines. Various unauthorized devices, claimed by their agents to eliminate noise, to destroy germs, supplant the telephone directory, etc., are entirely unnecessary and interfere with the service. Subscribers are requested not to permit the use of such devices in connection with their telephones.

Directory Advertising

For information regarding space in this book, call Oakland 5600 and ask for "Advertising Department."

Telephone Directories

This Directory is the property of The Pacific Telephone and Telegraph Company for the sole and exclusive use of its patrons, who are requested to maintain it in its original condition, usual wear and tear excepted. The Company assumes no liability because of errors or omissions. All requests for changes must be made to the Company in writing. The list of subscribers and telephone numbers herein are copyrighted, and all persons are cautioned against reproducing them.

Surrender of Old Directories

Subscribers are requested to surrender their old directories at the time the new book is delivered. New directories will be furnished to meet all service requirements so that there will be no excuse to use obsolete books. The old books do not contain many new and changed numbers and their use has a very detrimental effect upon the service.

COURTESY IN TELEPHONING

On each of the telephones located in one of the largest commercial establishments in this country is a card, reading as follows:

"The manner in which a person uses a telephone indicates his character to a great extent, and makes either a good or bad impression. And this impression is reflected directly upon the establishment from which such message comes.

"It is a pleasure to do business with a house which performs *Every Detail* in a clean-cut, satisfactory manner; but it leaves a sting to be answered abruptly or discourteously over the telephone. It is a folly to lose one's temper because one does not get immediate connection. This is rarely ever the fault of the telephone operators, who are nearly always courteous and prompt.

"When one is called to the telephone he should respond *Quickly*, and the person calling should not be left to hold the wire too long—something decidedly irritating and often unnecessary.

"Let us throughout the whole house strive to excel in satisfactory telephoning."

NUMBER OF TELEPHONES

OPERATED BY

The Pacific Telephone and Telegraph Company

FEBRUARY 1, 1912

Total in entire system in California, Oregon, Washington, Nevada, Idaho and Arizona	507,626	Subscribers
Oakland, Alameda and Berkeley Exchanges	34,757	"
San Francisco	87,821	"
Total in this Book	139,740	"
Telephones operated by local Companies and connecting with this Company's system	63,497	"

To Subscribers

There are at present over 139,000 Pacific Telephone and Telegraph Company telephones in the cities around the bay. Carefully planned rules are required in order to handle properly the collection of this large number of accounts.

One of the rules which has been found necessary is that if the account is not paid during the month for which the bill is rendered, in accordance with the terms of the contract, the Company cannot continue to furnish service. While the Company is anxious not to cause any patron inconvenience, the large number of accounts handled each month makes it impossible to distinguish between those bills which are unintentionally delayed in payment, and others.

We trust our patrons will appreciate our position in this matter and will co-operate with us by making prompt payment.

The Value of Telephone Service to the small Shop Keeper

SIX HUNDRED THOUSAND telephone calls are made in San Francisco and vicinity each day. A very large proportion of these messages are purchasing orders, or relate to buying or selling. This fact is of vital interest to shopkeepers. It indicates that the telephone system is the great channel through which flows a large part of the City's trade.

Large Shopkeepers are well aware of this fact, and have installed many telephones to serve as inlets for telephone orders. In many cases, telephone trade constitutes a large proportion of their business.

Small Shopkeepers, too, can get telephone trade—providing they have telephones, and give prompt attention to telephone orders. Telephone buying is on the increase, and the shopkeeper without a telephone is left at the post in the race for business.

For rates and information regarding telephone service, communicate with nearest Contract Office

The Pacific Telephone and Telegraph Company

FARMERS, RANCHERS AND STOCKRAISERS

Are Subscribers Of

The Pacific Telephone and Telegraph Company

DUAL
TELEPHONE EXCHANGES

The purpose and object of a Telephone Exchange is to afford a direct speaking circuit between parties at points distant from each other, to afford a highway for personal communication between any two.

Two local telephone exchanges in the same community are regarded as competing exchanges, and the public tolerates this dual service only in the fast disappearing idea that through competition in the telephone service some benefit may be obtained both as to rate and efficiency. Competition means that the same thing, or a satisfactory substitute, is offered. In this sense there can be no competing exchanges unless each exchange has substantially the same list of subscribers, which is in itself inconceivable.

$300 and up

For a Lot in

North Berkeley Terrace

RESTING on a continuation of the lower range of foothills that shelter Claremont and Piedmont, NORTH BERKELEY TERRACE rivals either of these beautiful residential sections in the scope of its panorama of land and bay.

Broad roadways gracefully lead to the higher elevations that overlook an inspiring vista of homes and gardens, extending from Haywards to the Golden Gate. In the foreground is Richmond, with its many commercial activities, backed by the waters of the Pacific that border the scene of homes and hills, extending east as far as the eye can reach.

Improved in a superior manner with graded streets, cement sidewalks and water mains, NORTH BERKELEY TERRACE presents itself, completely equipped for the immediate erection of its homes. It is the logical and most desirable site for the residence of the Richmond business man; it is ABSOLUTELY THE ONLY HILLSIDE PROPERTY IN THE RICHMOND-BERKELEY REGION OF RESIDENTIAL EXPANSION.

Unexcelled Transportation Facilities

HIGH-GRADE IMPROVEMENTS

WITHOUT a doubt and beyond dispute, the greatest developer of real estate is its transportation equipment. The E. N. Tapscott properties are completely and permanently supplied with a most superior street-car service, Oakland-Richmond electric line on San Pablo avenue, the Santa Fe through the property, and the recent $200,000,000 merger of the Oakland Traction lines—the East Shore system and the Key Route—with their road direct to Richmond and their permanent right-of-way through North Berkeley Terrace and Boulevard Gardens.

NORTH BERKELEY TERRACE and the reserved portion of Boulevard Gardens Tract No. 1 are improved with graded streets, cement sidewalks and water mains. Many attractive homes are now on the property; schools, stores and churches are adjacent. The growth of Richmond, the Pullman shops, the Standard Oil Co. and the many commercial interests contiguous, are factors that will rapidly build up this section and increase the present value of property. Make a reservation now and share in the profit of the greatest speculative opportunity of the day.

$300 and up

For a Lot in the Reserved Portion of

Boulevard Gardens

HILLSIDE property is, and always has been, the scene of the choicest homes and greatest increase in realty values. Fortunes have been made in Piedmont property—fortunes are to be made in the reserved portion of Boulevard Gardens Tract No. 1—the last of the San Pablo avenue hillside sites.

From the commanding elevations of the property, the eye takes in the splendid homes of the North Berkeley district, forever your neighbor on the south; on the west is the bay, with San Francisco beyond; immediately north, and permanently protecting you against the encroachment of inferiorly improved property, is NORTH BERKELEY TERRACE, the last residential property in Berkeley's growth toward the Pullman shops.

With excellent transportation facilities and high-grade improvements, this property will permanently be the choicest residential section for the Richmond business man. Its future is assured; its value is established; the time to buy is now, before the best sites are gone and the prices raised.

FRANK SNOW, MANAGER TEL. OAKLAND 6345

We Clean and Press Ladies' and Gents' Tailored Suits

F. SNOW

METROPOLE DYE WORKS

1026-28-30 Twenty-Eighth Street

Call for Frank Snow, Oakland 6345

No connection with any other firm by the name of Snow

A few testimonials from leading theatrical companies
of our work in handling delicate and costly garments

Statement of H. Demuth (Manager of Three Twins Company of one hundred people at Macdonough Theater) to Frank Snow:
We saved our wardrobe for three months for you to clean, knowing it would be well taken care of.

Frank Snow
Dear Sir:—I am more than pleased with your work, as evidenced by giving you my entire wardrobe to clean.
Earle Reynolds, Nellie Donegan, at Orpheum.

Mr. Frank Snow
Dear Sir:—Allow me to congratulate you on your splendid work.
Charles T. Garry, Secretary Merry Widow Co.

Very clever cleaning and prompt. Can highly recommend.
McKinley, Stage Manager Anna Held Co.

Is Your Name Listed In This Directory?

IF not, you are losing a valuable service. ¶How can your business or social friends and acquaintances reach you? ¶This is a big city and no casual inquiry will locate you. ¶The Telephone Directory is the most accurate business and social register, and the one used most frequently. Your name should be in it. : :

BEFORE THE NEXT ISSUE, CALL AT ONE OF OUR CONTRACT OFFICES and ARRANGE for YOUR LISTING

We respectfully warn our subscribers to

Beware of Bogus Collectors or Inspectors

PROPERTY OF
COUNTY CLERK

All employees of the Company whose duties require them to enter the premises of its subscribers for any purpose whatever are supplied with credentials; and any subscriber having the slightest doubt as to the identity or the right of the person representing himself to be an employee of the Company should inspect the credentials.

Subscribers having Automatic Coin Boxes are requested to

BE PRESENT AT THE TIME
THE BOX IS EMPTIED

and to vertify the contents before signing the certificate.

STREET GUIDE

PROPERTY OF
COUNTY CLERK

COMPILED FOR THE

Oakland, Alameda, Berkeley Classified Business Telephone Directory.

WITH a view to making the Classified Business Telephone Directory of greater value to subscribers and to the general public than in the past, The Pacific Telephone and Telegraph Company is publishing several new features. In this issue of the Telephone Directory there appears a comprehensive and accurate Street Guide, a list of all Public Office Buildings and their locations, and a list of City and County Officials.

It is the Telephone Company's desire to make this Classified Business Directory accurate in every respect, and, while in so far as we know every name is correctly printed, the Company will appreciate it if any subscriber will call to its attention any error, or change in classification which is desired.

REACHING THE RENTING AGENT

HOUSE HUNTING is made easy by the use of the Telephone.

Few people realize how much business they can do and how quickly they can do it over the wire. It is not even necessary to be in the same town, because the Long Distance Service of the Bell System brings everyone within talking distance.

In all the business and social affairs of life, people put their trust in the Bell Service because it is universal.

THE PACIFIC
TELEPHONE & TELEGRAPH COMPANY

Every Bell Telephone is the Center of the System

Their Seven League Boots.

A LITTLE group of men were sitting in the smoking room of a San Francisco hotel one night telling stories and discussing things generally. The conversation lagged for a brief moment, during which the faint but commanding tinkling of a telephone bell was heard.

Brown, a big, jolly fellow who represented a large manufacturing concern in a Southern city, listened to the distant ringing of the bell for a second, and then turned the conversation by saying:

"Bless'd if I see how we could do business nowadays without the long distance telephone. Got a call from the house this afternoon with a tip that starts me for Seattle first thing in the morning. Portland is usually my next stop."

"That's so," chimed in another, "I used the long distance the other day when I was at Sacramento. I got a call to go back to San Francisco. Hadn't seen a half dozen of my upstate customers. So I called them on the telephone and took orders for over a thousand dollars' worth of goods. What did it cost? Oh, the toll charges were only $10.35, which was a small percentage on sales when you consider time and traveling expenses."

"Well," said the veteran of the group, "I found the long distance telephone mighty useful when I was in a train wreck in Oregon last spring. The morning papers were full of the account of the wreck. I knew that my wife would be about worried to death until she knew I was safe. I got to a Bell telephone as quickly as I could, and you bet she was glad to hear my voice and to learn that I was not hurt."

"The Bell long distance makes a hit with me," said the man from Los Angeles. "When I made my last trip, we were expecting a new arrival in our house, but I simply had to go. I was right here in this hotel when my brother Jim called me on the long distance and said: 'Congratulations, old man! It's a boy! Mother and child doing nicely.' It was a big relief, I can tell you."

"Long distance call for James B. Smith!" cried a hotel page, approaching the group.

"Well, boys, I may have another telephone story to add to the collection," said Smith as he arose to answer the call.

"Which illustrates just what we were talking about," said the man from Los Angeles. "We seldom get beyond the reach of the Bell Long Distance Telephone Service."
